1. Estimated number of manuscripts and pages in the Dynam. Systems Appl., Special Issue 2016, 15 articles, each with a maximum of 15 pages.

2. After the completion of reviews, Guest Editors will forward their final recommendations to the Editor-in-Chief, Professor Sambandham.

3. All manuscripts will be reviewed by at least two reviewers with expertise on the topic of the manuscript. Reviewers will be invited by Guest Editors.

4. In cases when articles are conditionally accepted subject to satisfactory revision, due to time constraint there will be only one chance for such revisions. If a revision is unsatisfactory, the article will be rejected.

5. The Guest Editors' Liaison, Professor Tunc, is responsible to make sure that manuscripts are formatted in pdf and Latex (and any other form of tex), correctly according to the DSA' s "Author Guidelines", and are written in fluid English language (grammatically correct and with no typos).
